

Key Stage Three Geography Overview

During key stage three you will study many different topics in Geography. Some of these topics will link together; they have all been chosen to help you develop a clearer understanding of the features and processes that influence the physical (natural) environments and human environments. We hope you enjoy studying them as much as we like teaching them!

| | 1 | 2 | 3 | 4 | 5 | 6 |
|--|--|---------------------------------------|----------------------|---|----------------------------|--|
| Year Seven (3 lessons per fortnight) | Baseline assessments & Our Island Home | Our Local Area | Fantastic Places | Extreme Weather: Hurricanes and Tornadoes | Africa a diverse continent | Ecosystems/ The tropical Rainforest |
